Calculus: Early Transcendentals

Known for accuracy, precision, and rigor, Soo Tan now brings those same qualities to the Calculus course. With his clear, concise writing style, and use of relevant, real world examples, Tan introduces abstract mathematical concepts with his intuitive approach that captures student interest without compromising mathematical rigor. In keeping with this emphasis on conceptual understanding, each exercise set begins with concept questions and each end-of-chapter review section includes fill-in-the-blank questions which help students master the definitions and theorems in each chapter. Additionally, many questions asking for the interpretation of graphical, numerical, and algebraic results are included among both the examples and the exercise sets. Killing Jesus

Only Alexander knows why the barn is haunted—and by what When Alexander notices an eerie light coming out of the barn, he thinks his friend Blossom Culp is trying to spook him. But strange things really are happening there. Slimy footprints appear out of nowhere, and whimpering sounds float down from the hayloft. And when he ventures into the barn in the dark of night, his breath catches in his throat. Suddenly Blossom's words come back to him: "You can make contact with the Unseen." Now there's a girl ghost standing right in front of him, telling him of great danger ahead. But is there time for Alexander to act on her warning? Blossom Culp #1 "Peck's blending of mystery and humor makes an unusual and entertaining ghost story." —Booklist, starred review

Four Kinds of Rain

(Book). There's a huge amount of hype and mythology surrounding tube amplifiers in the guitar world. For years, experts have argued over the tiny details of exactly how they do what they do, and how their various components interact. What's undeniable is that, far more than being just a "loudness booster," the unique combination of tubes, capacitors, resistors, and transformers in these amps can contribute enormously to the quality of sound derived from any electric guitar. In this thorough and authoritative book, Dave Hunter cuts through the marketing hyperbole, and the blind faith, and supplies all the information you need to choose the right amp, and get the best from it. The book also features exclusively conducted, in-depth interviews with leading figures in the tube amp-building world including Ken Fischer, Mark Sampson, and Michael Zaite and even provides full instructions on how to construct your own high-quality tube guitar amp from scratch.

Reclaiming a Scientific Anthropology

Embrace and revel in the stories of the toughest cyclists of all time, told by The Velominati, originators of The Rules. Read and get ready to ride... in cycling, suffering brings glory: a rider's value can be judged by their results, but also by their panache and heroism. Prepared to be awed and inspired by Chris Froome riding on at the Tour de France with a broken wrist or Geraint Thomas finishing it with a broken back, or any of the extraordinary stories contained in The Rules. Regrettably, some of the greatest cyclists ever, but the toughest. From Eddy Merckx to Beryl Burton, and from Marianne Vos to Edwig Van Hooydonk, the book will lay bare the secrets of their extraordinary and inspirational endurance in the face of pain, danger and disaster. After all, suffering is one of the joys of being a cyclist. Embrace climbs, relish the descents, and get ready to harden up... My Favorite Tractor

This volume was developed to meet a much noted need for accessible case study material for courses in human ecology, cultural ecology, cultural geography, and other subjects increasingly offered to fulfill renewed student and faculty interest in environmental issues. The case studies, all taken from the journal Human Ecology: An Interdisciplinary Journal – represent a broad cross-section of contemporary research. It is tempting but inaccurate to suggest these represent the “Best of Human Ecology.” They were selected from among many outstanding possibilities because they worked Page 2/4
necessary to meet National Automotive Technicians Education Foundation (NATEF) requirements for National Institute for Automotive Service Excellence (ASE) Standard 1: Engine Repair. Organized by ASE topic area, companion tasks are grouped together for more efficient completion and are clearly labeled with CDX and NATEF task numbers and the NATEF priority level to help students easily manage responsibilities. This manual will assist students in demonstrating hands-on performance of the skills necessary for initial training in the automotive specialty area of engine repair. It can also serve as a personal portfolio of documented experience for prospective employment. Used in conjunction with CDX Automotive, students will demonstrate proficiency in engine fundamentals, diagnosis, service, and repair.

The Guitar Amp Handbook
(Book). For this follow-up to his popular A Desktop Reference of Hip Vintage Guitar Amps, Gerald Weber has compiled his articles and "Ask Gerald" columns that have appeared in Vintage Guitar from 1993 to 1996. As a special bonus, Ken Fischer’s “Trainwreck Pages” from Vintage Guitar are also included. This book assumes that the reader has at least a working knowledge of tube guitar amplifiers, and it will be helpful and interesting whether or not guitarists intend to perform their own servicing.
