annotations reveal the work's complexity, unraveling the deep and diverse intertextual connections between the Kîmo sinhwa and preceding works of Chinese and Korean literature and philosophy. The Kîmo sinhwa can thus be read and appreciated as a hybrid work that is both distinctly Korean and Sino-centric East Asian. A translator's introduction discusses this hybridity in detail, as well as the unusual life and tumultuous times of Kim Sîsopp; the Kîmo sinhwa's creation and its translation and transformation in early modern Japan and twentieth-century (especially North) Korea and beyond; and its characteristics as a work of dissent. Tales of the Strange by a Korean Confucian Monk will be welcomed by Korean and East Asian studies scholars and students, yet the body of the work—stories of strange affairs, fantastic realms, seductive ghosts, and majestic but eerie beings from the netherworld—will be enjoyed by academics and non-specialist readers alike. In classical Chinese, ghosts were considered as real as the trees or hills or wind. Decisions concerning everything from construction of homes and buildings to the course of the roads winding through the countryside were made considering the impact that could result from unsettling or angering the spirits. To avoid the risks of drawing the attention of the otherworldly, the people recounted stories of the supernatural to one another as reminders as warnings. Candle Game:TM Strange Tales from a Chinese Studio contains complete rules for play and features tales including Pu Songling's classics "The Painted Skin," and "Decaying Shadows" (translated by Herbert Giles and George Soulie, as well as works from translators such as Lafcadio Hearn with "The Story of Minge-Y.") Included as part of the game, these eerie stories can also be read on their own.
