Complete proceedings of the 13th European Conference on Research Methodology for Business and Management Studies ECRM 2013 PRINT version Published by Academic Conferences and Publishing International Limited. Water, Rhetoric, and Social Justice: A Critical Confluence examines how individuals and communities have responded on a global scale to present day water crises as matters of social justice, through oratory, mass demonstration, deliberation, testimony, and other rhetorical appeals. This book applies critical communication methods and perspectives to interrogate the pressing yet mind-boggling dilemma currently faced in environmental studies and policy: that clean water, the very stuff of life, which flows freely from the tap in affluent areas, is also denied to huge populations, materially and fluidly exemplifying the currents of justice, liberty, and equity. Contributors highlight discourse and water justice movements in nonofficial spheres from activists, artists, and the grassroots. In extending the technical, economic, moral, and political conversations on water justice, this collection applies special focus on the novel rhetorical concepts and responses not necessarily unique to but especially enacted in water justice situations. Scholars of rhetoric, sociology, activism, communication, and environmental studies will find this book particularly useful. • Detailed solutions • Mapped with UPSC official answer keys • Error free solutions • Two Mock Papers for practice • Tips to crack UPSC CSE examination • UPSC CSE 10-year subject wise Trend Analysis • Authentic, interactive and elaborate solution As an annual event, International Conference on Language, Literature, and Education in Digital Era (ICLLE) 2019 continued the agenda to bring together researcher, academics, experts and professionals in examining selected theme by language, literature and education in digital era. It focuses on Japanese contractors operating in Singapore, since the Singapore construction industry has, for many years, been one of the largest overseas construction markets for the top-5 Japanese contractors. Using Hofstede’s national cultural framework for the cultural studies in construction project management, it reveals various real-world management practices and discusses national cultural differences relating to managers working for Japanese contractors in Singapore as well as the communication weaknesses of current management practices and styles. The results presented provide useful lessons for Japanese contractors operating in Singapore, as well as other parts of the world, to bridge cultural and communication gaps. A Single Cohesive Framework of Tools and Procedures for Psychometrics and Assessment Bayesian Psychometric Modeling presents a unified Bayesian approach across traditionally separate families of psychometric models. It shows that Bayesian techniques, as alternatives to conventional approaches, offer distinct and profound advantages in achieving many goals of psychometrics. Adopting a Bayesian approach can aid in unifying seemingly disparate—and sometimes conflicting—ideas and activities in psychometrics. This book explains both how to perform psychometrics using Bayesian methods and why many of the activities in psychometrics align with Bayesian thinking. The first part of the book introduces foundational principles and statistical models, including conceptual issues, normal distribution models, Markov chain Monte Carlo estimation, and regression. Focusing more directly on psychometrics, the second part covers popular psychometric models, including classical test theory, factor analysis, item response theory, latent class analysis, and Bayesian networks. Throughout the book, procedures are illustrated using examples primarily from educational assessments. A supplementary website provides the datasets, WinBUGS code, R code, and Netica files used in the examples. The Business Tax Answer Book covers an encyclopedia of information -- everything a business owner or advisor needs to know about tax and how to interpret and apply the tax rules.
